

GUIDELINE 4-1

MODIFICATION OF THE CURRENT USSDS SD01 TO SD03 SCREENS FOR USE WITH THE BRAIN INJURY WAIVER FOR INTAKE

1. Persons with Traumatic Brain Injury have different eligibility requirements, but the same USSDS screens are used to enter them into the system with the modifications outlined below.
2. The following are the modifications that need to be used:
 - a. SD01-MA (Applicant Intake-Start Screen). Complete the screen fields the same as for the DD/MR waiver. The information for the person's father and mother is optional if the person is over 18.
 - b. SD01-MB (Demographic Update Screen)
For Educational Level blank, enter same as DD/MR.
For Descriptive Information blank, number 1-6, enter same as DD/MR.
For Diagnostic Status blank, Primary DX, enter #14 for DI. If there are additional diagnoses, enter other codes as in DD/MR waiver.
 - c. SD01-MC (Functional Limitations) for Functional Level blank, question #1, enter a A7" for the Brain Injury, and for questions 2-10, enter same as DD/MR waiver.
 - d. SD01-MA (Demographic Update) All fields are optional.
 - e. SD02-MA (Applicant Intake Completion)
For the ICAP Service Score blank, enter the score from the ABI Comprehensive Assessments for scores between 20 and 75.
For the ICAP Maladaptive Score blank, enter a zero.
For the ICAP Service Level blank, enter a zero.
For the ICAP Date blank, enter the date of the BI Comprehensive Assessment.
For the Functional Impairments blank, enter the same as the DD/MR waiver.
For the Completion Date blank, enter the same as the DD/MR waiver.
 - f. SD03-MA (Tickler Dates)
For the Title XIX Diagnostic Code blank, enter code 294.8.
For the 817 Date blank, enter the date the form is being completed.

The rest of the screen is OPTIONAL.
